Port Notes

1992: Similar to 1991 but only declared by those who did not do so in that year. Again, a small vintage that needs a few more years.

1994: The climate was near perfect in the Douro for the making of top quality port, the late frost in May reducing yields by 30% and making the small quantity of Port produced even more concentrated than usual. Big full bodied wines with excellent staying power and classical potential summarizes this vintage - some drinking now.

1997: Superb quality, but quantities very limited from this vintage, which produced smaller yields than in 1994 - a vintage for the medium to long term.

2000: The wines are full and rich in the mouth with fresh blackberry and red plums. Laying down the wines for fifteen to twenty years will certainly be rewarded.

2003: After the magnificent hot summer they had in the Duoro and we had here, conditions resulted in wines that will have up-front appeal but maybe a reduced life span?

2007: Looks set to join the ranks of the great vintage ports. Its wines already imbued with an extraordinary purity of flavour, once again a small volume but will age well into the future.

2009: Split vintage, low yeilds. Firm and tannic structure and good concentration. Very rich and round.

2011: The weather conditions throughout the whole growing season have been described as perfect. The 2011 vintage is being lined up to be amongst the greats.

2016: A generally declared vintage, with the wines showing exuberant fruit, racy acidity and tightly focussed structure.

2017: A rare back to back general declaration thanks to a very warm, dry season leading to intensely concentrated wines.
